

**Senator Bob Dutton**  
and the San Bernardino Area Chamber of Commerce  
invite you to a workshop to learn

## ***How to Protect Your Business from an ADA Lawsuit!***

***You could be sued . . .***

*. . . if you have any of the items you see  
in these pictures— or dozens of others— and  
your business is open to the public.*

Learn how to avoid these claims. Tens of thousands of lawsuits have been filed against small businesses throughout California in the past few years. 98% of small businesses may have one or more conditions which could lead to these claims— round door handles, unsecured floormats, etc.

This event is being presented by Senator Bob Dutton and the Chamber in conjunction with **California Citizens Against Lawsuit Abuse**, and **David Warren Peters**, an attorney who has been consulted in more than 900 lawsuits throughout the United States. A new law in California may help protect you, but only if you take certain steps *before* you are served with a lawsuit. Certified Access Specialist **Philippe Heller**, of **ADAComplianceReview.com** will be on hand to answer questions.

**March 9, 2012, 7:30 to 9:30 AM**

at the Chamber offices at 546 W. 6<sup>TH</sup> Street, San Bernardino, 92410.

Seating is limited; please RSVP to 909-466-4180
